PEARL TIMPANI THRONE
D-3000TC
Instruction Manual

Congratulations on your purchase!
To get optimum performance from your Timpani Throne,
please read this Instruction Manual before playing.

- Backrest w/Holder
- Seat
- Footrest
- 5-Leg Base
Assembly
Please follow the assembly instructions below.

1. Place the 5-Leg Base feet down on a flat level surface. Insert the Gas-Lift Post into the 5-Leg Base as shown and press firmly until the Post is fully inserted. (Fig.1)

2. Slide the Footrest onto the Gas-Lift Post as shown and set it at the desired height. Hold the Clamp with one hand, and rotate the Ring clockwise to tighten the Footrest. (Fig.3)

3. While holding the sides of the Seat in both hands, insert the Seat onto the Gas-Lift Post as shown and press firmly until the Post is fully inserted. (Fig.4) Sit on the Throne to "fit" the Seat, the Gas-Lift Post and the 5-Leg Base into one unit.

4. Unscrew and remove the Knob Bolt from the Backrest Holder. Insert the Backrest Holder into the Seat Bracket and set the Backrest Holder to the desired position as shown. (Fig.5) Reattach the Knob Bolt and tighten it securely.

Note
Do not press the Release Button at the top of the Gas-Lift Post. Doing so will make the shaft telescope outward which could cause damage to the Post and/or possible injury to the user. (Fig.2)

Note
The Seat, Gas-Lift Post and the 5-Leg Base are press-fitted when weight is applied. Before transporting, make sure that the parts are fitted together securely to prevent the throne from coming apart and causing injury to property, to the user or to others.

Note
The Washer must be used with the Knob Bolt for proper function of the Backrest.
**HEIGHT ADJUSTMENT**
Pull the Height Adjustment Lever up to raise the height of the Seat. Place your weight on the Seat and lift the Lever to lower the height. Release the Height Adjustment Lever when the desired height is achieved. (Fig.6)

**FOOTREST HEIGHT ADJUSTMENT**
1. Hold the Clamp with one hand. Loosen the Ring by rotating it counterclockwise then slide the Ring to the desired height.
2. Rotate the Ring clockwise to tighten. (Fig.8)

**BASE LEVEL ADJUSTMENT**
To compensate for irregular floors, one of the rubber tips has an adjustable Tip labeled “Level Adjuster.” Turn the Tip clockwise to raise the Base and counterclockwise to lower the Base. (Fig.9)

**BACKREST ADJUSTMENT**
1. Height Adjustment
   Loosen the Knob Bolt and slide the Backrest to the height you prefer. Tighten the Knob Bolt securely. (Fig.7-A)

2. Back/Forth Position Adjustment
   Loosen the Knob Bolt on the Seat Bracket and adjust the Back/Forth position to your preference. Tighten the Knob Bolt securely. (Fig.7-B)

**Note**
- Maintain control of the Ring to prevent the Ring from slipping and causing damage to the Ring/Throne or possible injury to the user.
- Do not let go of the clamp until the Ring is securely tightened.

**Note**
- Do not extend the adjustable Tip more than 5mm to prevent damage to the Tip and the threads in the Base.

- When making adjustments to the Knob Bolt, be careful not to pinch your hands/fingers.
- Do not adjust the position of the Backrest when seated as this may require twisting and reaching that can cause injury to your body. To prevent injury, make adjustments before sitting.
Keep the slide section of the Gas-Lift Post clean to prevent malfunction. Use only a dry cloth when cleaning the Gas-Lift Post. DO NOT USE oil or grease.

Do not rock back and forth on the Throne to prevent damage to the Gas-Lift Post.

Note

- Use caution when setting your Throne on uneven or slanted floors to prevent the Throne from tipping and causing possible injury to the user.
- The TC Throne is intended for seating while playing and is not designed as a ladder, footstool or any other appliance other than its intended use.
- Do not disassemble the Gas-Lift Post or put it near fire. The Gas-Lift Post could explode and cause damage to the Throne and surrounding property and/or possible injury to the user.
- Do not lean back too far on the Backrest. The Backrest is designed to support your back while playing and not intended to be used as a recliner. Leaning back too far can cause damage to the Backrest and Throne and/or possible injury to the user.
- The D-3000TC is heavy. When transporting the Throne, always carry it by the Seat or by the Backrest Holder. Don’t carry the throne by the Backrest as it could break or slip and cause the Throne to drop resulting in damage to the Throne and surrounding property and/or possible injury to the user. (Fig. 10)

CAUTION

- Use caution when setting your Throne on uneven or slanted floors to prevent the Throne from tipping and causing possible injury to the user.
- The TC Throne is intended for seating while playing and is not designed as a ladder, footstool or any other appliance other than its intended use.
- Do not disassemble the Gas-Lift Post or put it near fire. The Gas-Lift Post could explode and cause damage to the Throne and surrounding property and/or possible injury to the user.
- Do not lean back too far on the Backrest. The Backrest is designed to support your back while playing and not intended to be used as a recliner. Leaning back too far can cause damage to the Backrest and Throne and/or possible injury to the user.
- The D-3000TC is heavy. When transporting the Throne, always carry it by the Seat or by the Backrest Holder. Don’t carry the throne by the Backrest as it could break or slip and cause the Throne to drop resulting in damage to the Throne and surrounding property and/or possible injury to the user. (Fig. 10)

Make sure you tighten all screws and bolts before use.

When handling tubular hardware, do not put your fingers into the tubes top prevent injury to your fingers.
