Thank you for purchasing Pearl Gear Tom Holders.

This Tom Holder is assembled at the factory as shown on the right side of Fig.1. When using it as shown on the left side of Fig.1, the WingNut, Clamp Bolt and Stop Lock needs to be reassembled for the ease of setting and adjustment.

First, unscrew the Wing Nut "A" and Clamp Bolt "B" from the Tom Holder and put them back on in the opposite position as shown in Fig.2. Using a Drum Key, loosen the Key Bolts "D" on the Stop Lock "C" and pull them out of the pipe. Put them back on in reverse position so that the Key Bolt "D" is easily adjustable when mounted on the drums.
